This is a true story of a child born into a Middle Class (albeit dysfunctional) family in Middle Class Home Counties England in the Middle of the last century who came to be anything but 'Middling'. As the Child attempts to understand her Sado/Masochistic fantasies from the age of four she soon realises her lack of fear of punishment empowers her.

Her journey, often involving Headline Stories and Old Bailey Trials gave her many names. The Countess, The Whore, The Sadistic Pervert, Lesbian Mother, Freedom Fighter, HumanRight's Campaigner, Peace Tree Planter. They are all parts of a unique whole, encompassing four decades.

She survived to fight Court Cases brought by corrupt Police and Win, to see the Gangs controlling the London of the sixties imprisoned knowing and indeed living with part of their legal team. She understood intimately the need for Mafia money to control the Gambling Dens in Wilson's London and the Honey traps used by the USA in Europe to 'fight' the Cold War paranoia of that decade of so called Free Love. There were few Pop Stars or Media Wheeler Dealers of that era who did not use premises in which she was involved.

Many sharing a bed or a body previously occupied by a Sheik, Princeling or King. Or just some faded aristocrat with odd tastes in instruments of Torture.

Come in and share this tale. See how it unexpectedly leads to love, childbirth by insemination and a Secret Cell of Resistance during the First Gulf War. How the Art of Brothel keeping helped release a kidnapped prisoner in Arafat's compound in Gaza, but mostly be excited by the graphic details of a life with it's own Rules.
